Weary of Bleaseism.

No, it just happened that the representative people of the county are tired of Bleaseism and everything that it represents. Compulsory Education.

No South Carolinian can read the speeches being made by the candidates for governor and note the reception those candidates who are advocating compulsory education are receiving and doubt that compulsory education has won in this State. It will, of course, come along on common sense lines, but the principle is endorsed and the thinking people of the State will demand its effectiveness.-Spartanburg Herald.

Candidate and Voter.

To the Editor of the News and Courier: Upon what grounds should a man support a candidate for office? Because men have no convictions on this question, candidates use all sorts of catch-vote methods.
